

“When things are bad, we take comfort in the thought that they could always get worse. And when they are, we find hope in the thought that things are so bad they have to get better.”

– Malcolm S. Forbes

To Our Infinity Customers:

We are living in unprecedented times. The global pandemic has put our lives into much chaos and uncertainty. At Infinity, we recognize that this creates angst, as our clients manage the challenges of their daily lives.

Infinity IPS is here to support our clients' needs and will do so without interruption. Our platform is fully secure, hosted in a cloud-based environment – SoftLayer (owned by IBM) and supported by in-house and remote staff throughout the United States. As your partner, we will continue to support you as you navigate through this period.

We are hopeful to see the bright day ahead for our clients and for the industry. Wishing you success today and tomorrow.

With Gratitude,

The Infinity IPS Team

Chandresh Mehta, CEO
